PROFILE

I am Dattatrey Joshi, an IT Engineering graduate from Gujarat University with experience in mobile and web development. Skilled in Flutter, React Native, React.js, MongoDB, Express, Node.js I build responsive, user-friendly applications. Passionate about clean UI/UX and continuous learning, I create user-friendly and scalable solutions. I am a fast learner, a team player, and constantly eager to explore new tools and frameworks to stay ahead in the tech industry.

WORK EXPERIENCE

- **Prodigy InfoTech**   jan2024-jun2024
  - Web Developer Intern
- **Pyonix Technology**   july2025-aug2025
  - Mobile App Developer Full Time

Projects

- Developed a full-stack eCommerce web application using MERN stack with features like authentication, product management, cart, wishlist, orders, and secure payment integration.
- Built an admin dashboard using MERN stack for managing users, products, orders, and analytics with role-based access control and real-time updates
- Developed a real-time chat application using MERN stack with user authentication, one-to-one and group messaging, and WebSocket-based live communication.
- Developed a cross-platform eCommerce mobile app using React Native for iOS and Android, featuring authentication, product catalog, cart, wishlist, orders, and secure payment integration for tech products.
- Built an eCommerce mobile app using Flutter and Firebase with features like user authentication, product catalog, cart, wishlist, orders, and real-time database integration.
- Developed an eCommerce admin dashboard in Flutter with Firebase integration to manage products, orders, and users, along with real-time push notifications for order updates.
